# ECOA

---

*Amelia & Arisa*

## APPLICATION

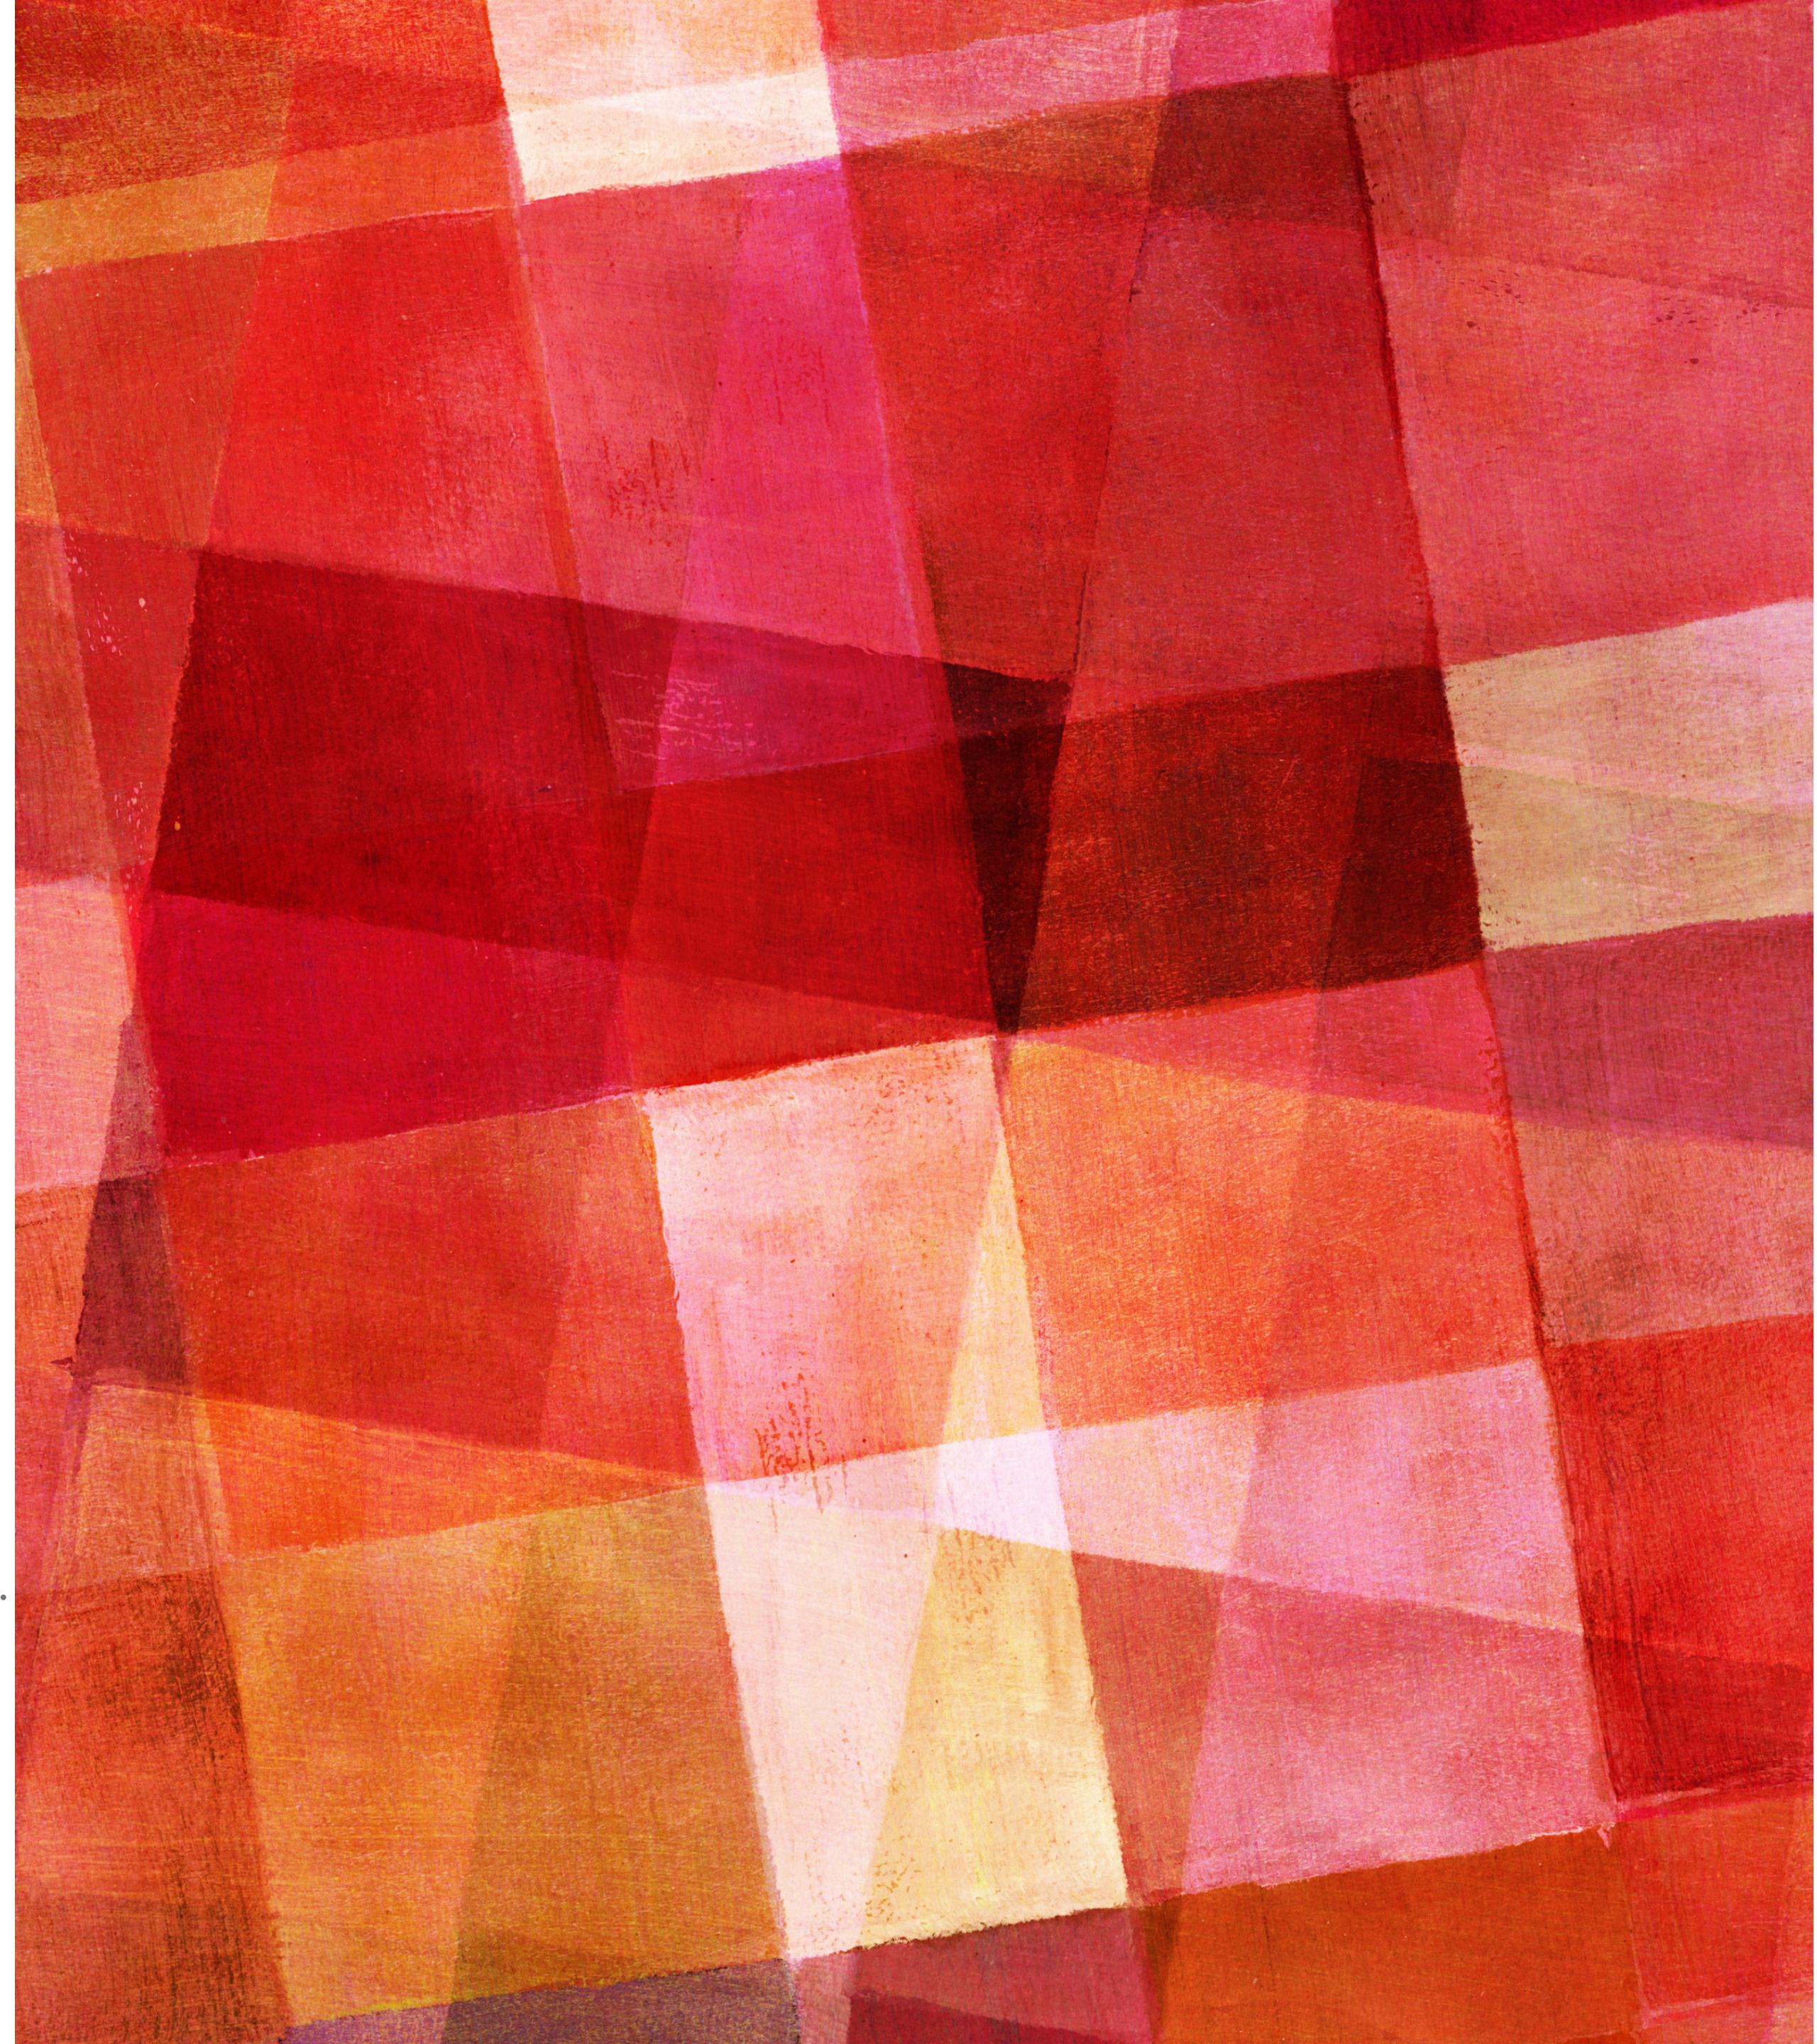

---

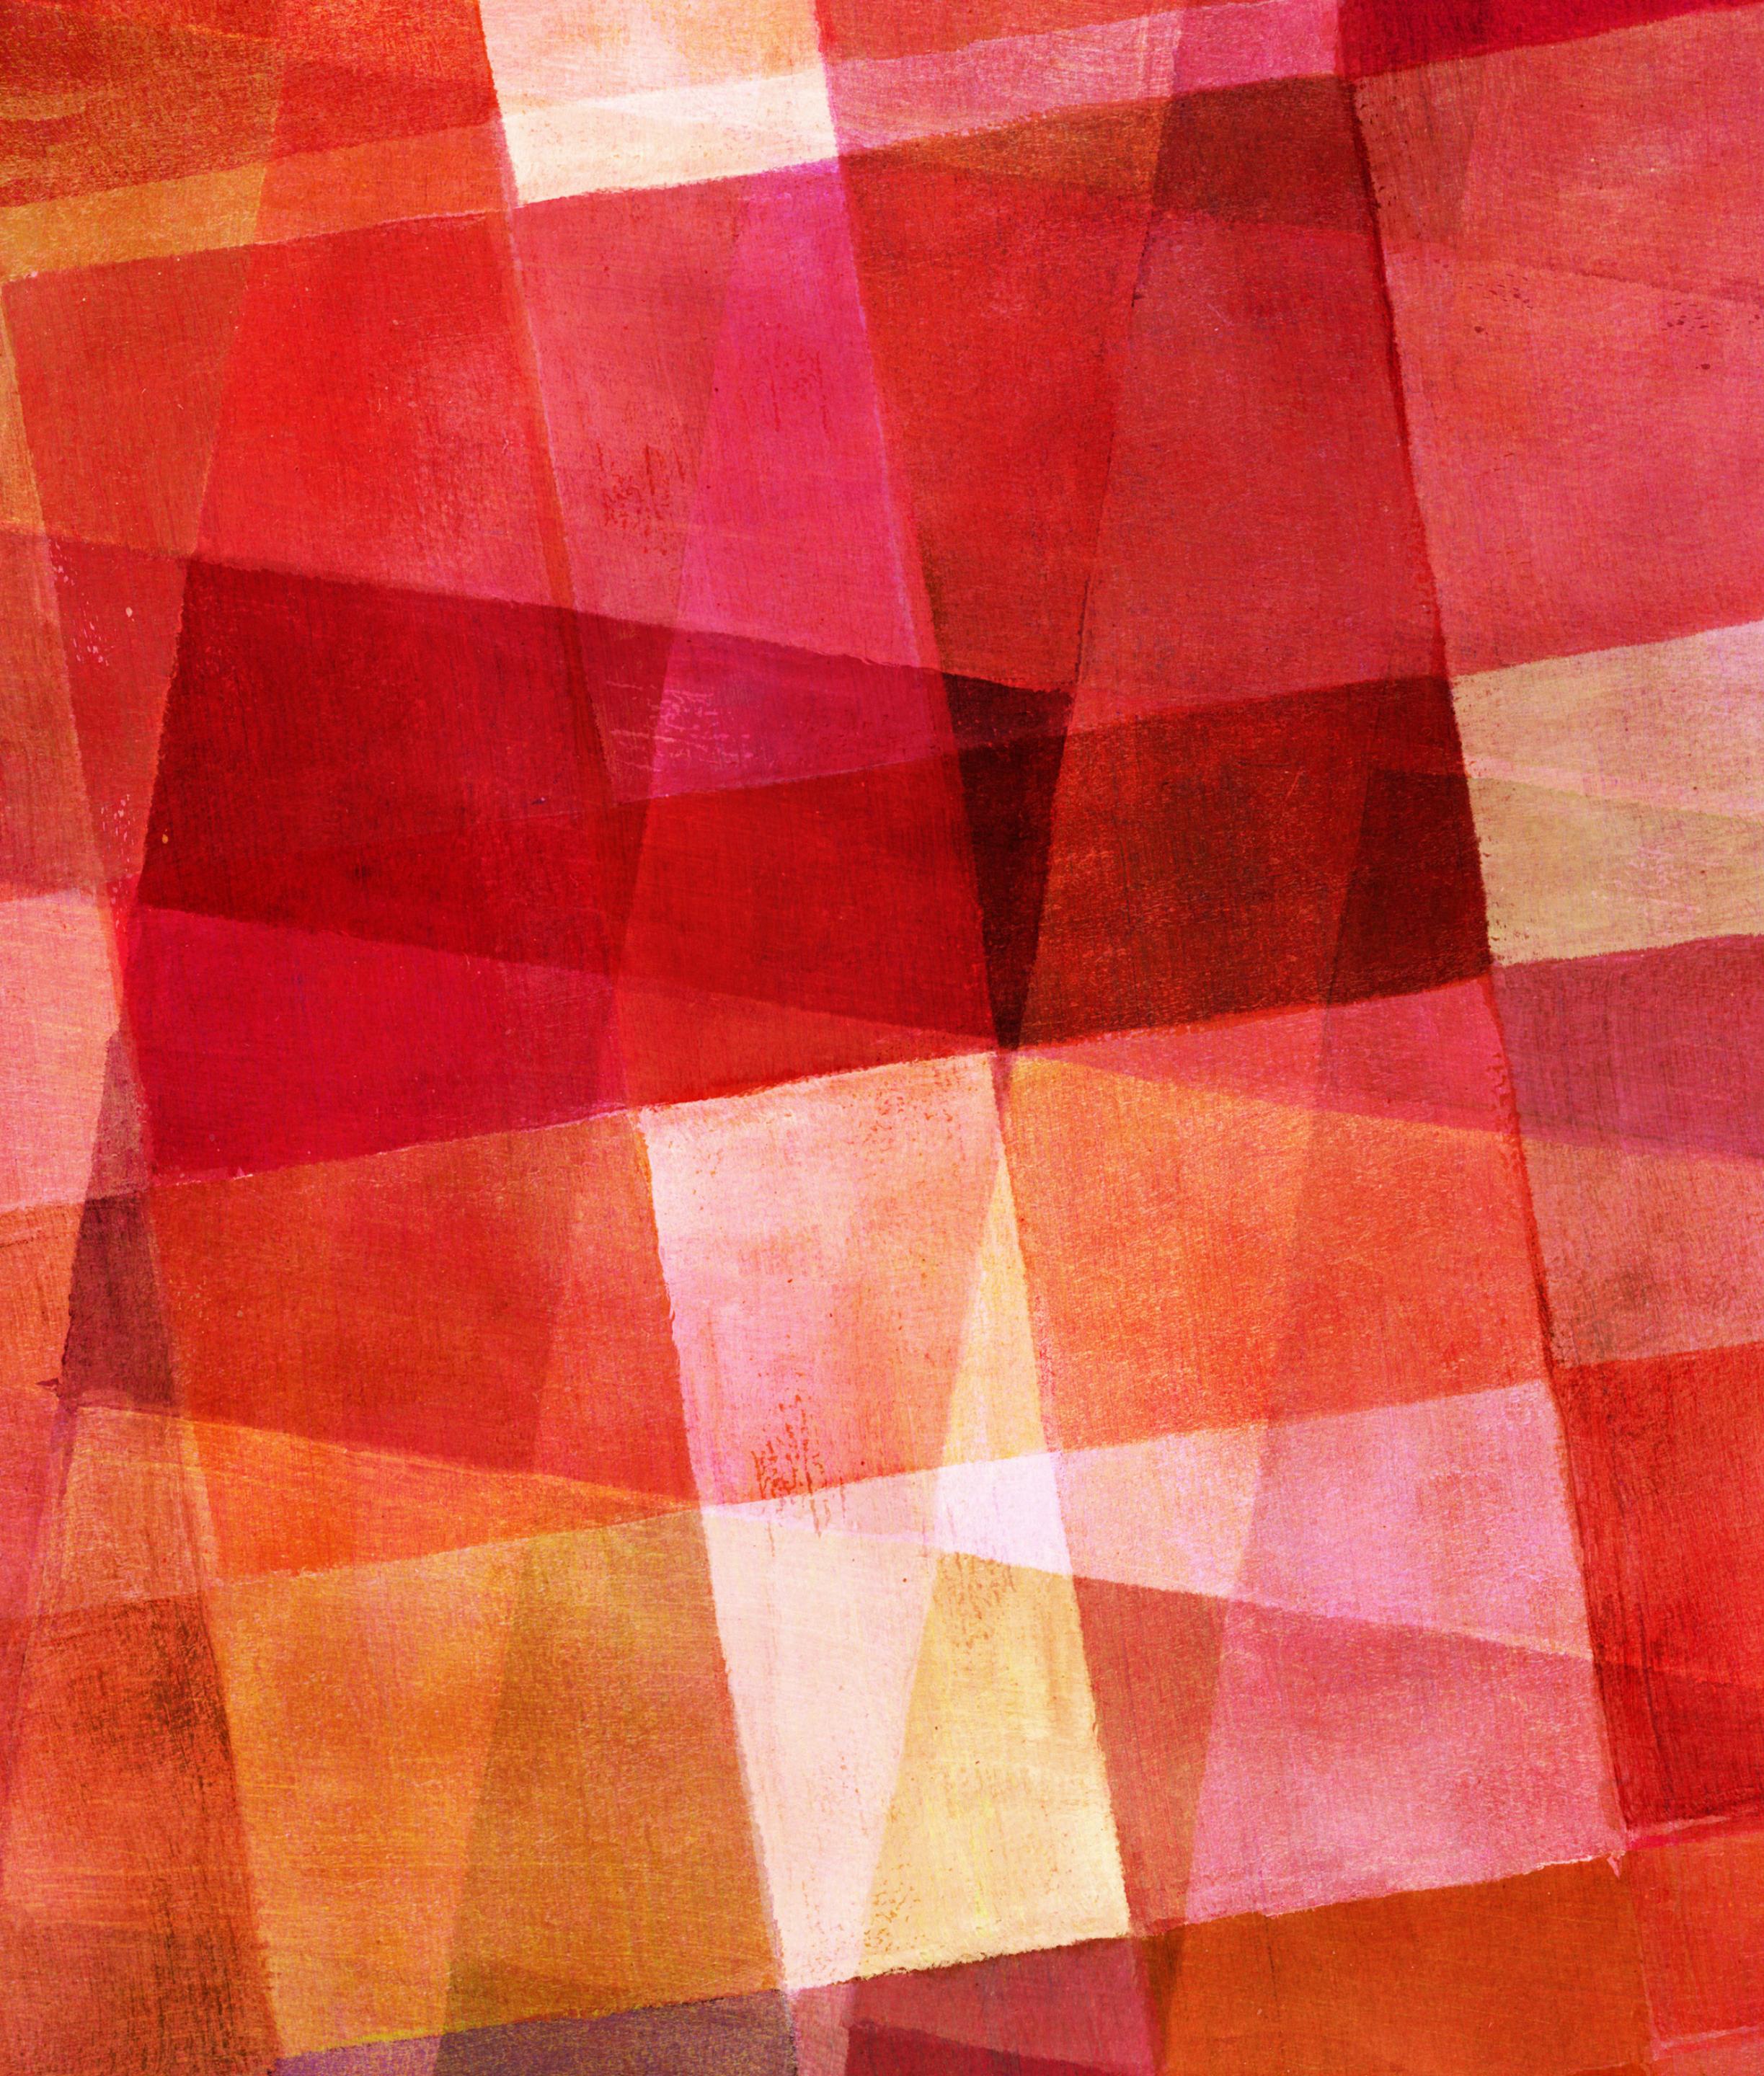

- A recipe platform for sustainable living products
- User can create the recipe and share
- User can search the recipes by category, tags, ingredient
- User can comment about the recipe
- User must sign up to create the recipe
- Non-logged in user can only check the recipes

# PURPOSE

---

- reduce their environmental footprint at home
  - User is able to find the recipe easily from one website instead of finding from individual blogs and some articles
- 

## TECH STACK

---

- MERN stack
- Heroku, Netlify for deployment
- Bootstrap

# THANK YOU

---
